

Statement of Inclusion

At CEASE, it is our mission to defend every person's human right to live free from sexual exploitation.

We are passionate about fighting to protect the inherent dignity and worth of each and every individual regardless of sex, race, class, political allegiance, religious beliefs, gender identity, national origin, disability or sexual orientation.

We seek to build a better world for all, but particularly to groups and individuals who as a result of the convergence of various factors - such as economic inequality, violence, stigma, racism, migration, neglect, abuse, disability or ethnicity - are particularly at risk.

We are also committed to diversity both within our immediate team and in our wider coalition.
